1. How long have you been involved with GeoKids? What type of work were you doing before coming to the school?

2. What are your current responsibilities in the program?

3. What do you believe the program is trying to accomplish?

4. How did the program get started? How has it evolved?

5. What activities does the program have planned for this year?

6. What do the School District schools contribute as program partners?

7. What does the GeoKids program do particularly well?

8. What could the program do better?

THANK YOU FOR YOUR INPUT
