Required Core Courses:

- DSS 210 Business Statistics
- DSS 220 Business Analytics *(Pre-requisite DSS 210)*
- DSS 335 Foundations of Supply Chain Management
- DSS 435 Advanced Business Analytics
- DSS 465 Supply Chain Analytics
- DSS Elective

The first two courses in the Supply Chain Management minor are in the Business core: Business Statistics (DSS 210) and Business Analytics (DSS 220). These two courses can be double-counted toward a Business student's major, and do not have to be replaced with additional courses for the minor. Business Intelligence and Analytics (BIA) majors must take an additional course to replace DSS 435 in the minor. This additional course cannot be double-counted toward a student's BIA major. For students pursuing an SCM minor, DSS 435 and Supply Chain focused courses cannot be double-counted as electives within the BIA major.
