Related Policies and Procedures

All reports made through this form or brought to a Responsible Employee will be investigated to the extent the University is able. Anyone considering filing a report is encouraged to review the Sexual Misconduct Policy and the Policy Prohibiting Discrimination, Harassment, and Retaliation for more information about procedures and resources. By submitting a report through this form information will be accessible to the Title IX Coordinator and Deputy Title IX Coordinator. They alone may share the content of the report with other personnel such as Community Standards or Public Safety as appropriate to the individual case. They may also share the information with an Investigator should the case be brought forward for investigation. In the instance of a University Investigation, the respondent will be permitted to view the report. Other parties not immediately related to the specific case (Parents, faculty, other staff, etc.) shall not have access to the content of the report without expressed consent of the reporter and complainant if different.

How information will be used

Information gathered through this form will be used to investigate the report, to the extent possible and will be used in conducting a University judicial process should one be conducted. Please note that the University’s ability to follow up, investigate and adjudicate a complaint will be significantly limited without identifying information. Information reported in the aggregate will also be used, as applicable for reporting as required by federal, state and local laws and applicable University policies and review and evaluation procedures.
